## Percussion Workshop in Brazil

09.01.2017 – 19.01.2017  
Salvador da Bahia

### Comments from participants

Thanks for a great time with a lot of rhythm and many heartfelt impressions and experiences. Dudu, you are a top class teacher, thanks so much, also thanks to Krista for the good organisation and the lovely time on the beach.

A huge thank you to Dudu and Krista for the two-week workshop in Bahia. A really unforgettable experience: beside the workshop itself and the flawless organization, I can't leave behind the stay in a very beautiful pousada surrounded by nice and warm people.

## Percussion Workshop in Salvador da Bahia

Bahia, the Bay of All Saints, is a musical melting pot of great diversity, and the same can be said for this workshop. The eleven-day residence offers four hours of lessons on each of ten days in small groups, leaving plenty of time to enjoy Salvador and its lovely beach nearby.

### Workshop

The lessons will take place in two phases. In the mornings we'll be concentrating on the playing techniques of the individual instruments: xekere, pandeiro or timba. In the second phase we'll learn the different samba-raggae-styles, modern grooves, and Batucada. Evening sessions with the local group „Kizumba“ are planned so that participants will have the chance to directly take part in the local and authentic musical life of the city.

### Before and After the Workshop

We are offering a free guide service for participants who want to come earlier and get the feel of Salvador, relaxed and easy-going. Excursions to the beach, walks through the city, concerts with the great Blocos Timbalada, Olo- dum, Ilé Ayê or Filhos de Gandhi open Salvador's uniqueness to us, and invite us to immerse into the wonderful atmosphere of the city.

### Pension/ Guesthouse

Our accommodation lies in the middle of the historical city center and has a beautiful view of Salvador da Bahia. In neat and clean two-bed rooms with shower, wc and tv, it also provides us with an oasis of relaxation and wellness with its garden and swimming pool. Even though it's in the heart of the vibrant city, it is a place where you can relax and recharge. Friends can accompany you without taking part in the workshop. (Please ask about costs – single room booking is also possible.)
